

Gulf Region Division, U.S. Army Corps of Engineers Cumulative Reconstruction Snapshot

(Cumulative data compiled as of 02 Jan 09)

Reconstruction efforts are a vital component to Iraq's progress toward democracy.

Despite 25 years of neglect and a costly insurgency, Iraq's infrastructure is bouncing back and U.S. assistance projects are having a real impact on the lives of its people, rebuilding Iraq's infrastructure, supporting the emergence of democracy, and establishing a foundation for a strong economy.

U.S. efforts were intended to jumpstart reconstruction. The success of reconstruction is dependent on Iraqi funding, donor nation support, and security.

It will take time and considerable resources to rebuild Iraq after years of neglect under Saddam's rule. U.S. funds are only a part of the overall broader effort, which will be continued with Iraq's own enormous human and capital resources, and the support of other donor nations.

Statistics below reflect the projects funded under Iraq Relief and Reconstruction Fund (IRRF), Developmental Fund of Iraq (DFI), Commander's Emergency Response Fund (CERP), Economic Support Fund (ESF), and Iraq Security Forces Fund (ISFF).

(Note: Data was compiled by the contractor, Stanley Baker Hill, LLC, from the Iraq Reconstruction Management System (IRMS) database of construction projects in Iraq. Data is pulled from the GRD Benchmark table in IRMS. Data is subject to change as more project information is entered. This does not include non-construction investments such as equipment purchases, training, and some security.)

At transfer of sovereignty in June 2004, there were just 200 projects started.

As of 02 Jan 09, USACE/GRD has:

- **127** additional planned projects – construction cost of \$351.1M; program cost of \$378.6M
- **4,400** projects completed – construction cost of \$6.8 B; program cost of \$7.1 B
- **401** projects ongoing (Started not completed and awarded not started) – construction cost of \$2.0B; program cost of \$2.2B

Electricity

- USACE has 3 additional projects planned, 577 projects completed and 31 on-going
- Of the 6,000 megawatts planned, 4567 megawatts have been added and restored, increasing the capacity of electrical power
- Strengthened and stabilized the electrical transmission grid through the completion of 35 132/400kV substations and 11 overhead line projects
- Completed construction of 87 33/11kV substations

**Gulf Region Division, U.S. Army Corps of Engineers Cumulative
Reconstruction Snapshot**

Oil

- USACE has 27 additional projects planned, 128 completed and 10 ongoing
- 3.0 million barrels per day of planned capacity has been met
- Natural gas production capacity metric of 800 M standard cubic feet per day has been met
- Liquefied petroleum gas (LPG) production capacity metric of 3,000 tons per day has been met

Water

- 21 additional water supply projects planned, 916 completed and 82 ongoing
 - Of those, 602 are water treatment and sewage projects with 562 completed and 40 on-going
- Of the 1.1 million cubic meters per day of potable water planned for IRRF, 0.9 million cubic meters per day of water treatment capacity has been achieved affecting 4.7 million people
- 0.2 million cubic meters per day of water treatment capacity is under construction

Facilities

- 47 additional projects planned; 2,687 completed; 163 ongoing

Transportation and Communication

- Completed 242 village road projects, an additional 9 village road projects and 19 are on-going
- 114 railroad renovation projects of which 112 are complete
- 25 of 26 aviation projects are complete, improving 8 airports
- Completed 8 port projects

Building, Health and Education

- Of the 132 IRRF funded Primary Healthcare Centers, 132 are turned over to the Iraqi Ministry of Health; 5 projects are on-going
- For hospital renovation projects, 0 additional projects are planned, 12 are ongoing and 41 are completed
- This increases the capacity to treat approximately 6.6M patients in hospitals and 4.6M outpatients at the PHCs annually
- 1,098 school renovations or new construction projects are complete and 37 are on-going

Security and Justice

- Completed construction on 155 border posts and 14 Point of Entry facilities (MNSTC-I included)
- Completed 95 fire station projects
- Completed work on 56 courthouse projects with 13 on-going

**Gulf Region Division, U.S. Army Corps of Engineers Cumulative
Reconstruction Snapshot**

- Constructing/rehabilitating 5 correctional facilities that will provide up to 8,489 beds and improve conditions for many more
